

## CLUB PRIMER

The Tesla Owners Club of Kansas City (TOC KC) began as an idea to provide a central location where Tesla owners and enthusiasts could gather to share information and provide advice. The club and associated website have evolved into the ultimate one-stop shop for all things related to Tesla®.

Model 3 having the aero wheel removal kit installed

The club website provides a lot of features for both existing Tesla owners as well as would-be owners or enthusiasts.

Some of the offerings include: A discussion forum, Tesla Owners Club related merchandise, special offers from sponsors, a series of "How-To" articles, an events calendar, classifieds and even your own personal photo gallery for your Tesla! The Tesla Owners Club of Kansas City will be sponsoring a number of events this year. Please visit the website today for more details! <https://TeslaKC.Net>

## TESLA OWNERS CLUB KANSAS CITY

The Tesla Owners Club of Kansas City is the one-stop gathering point for all things related to Tesla and Tesla Ownership. The new Tesla Model 3 has quickly become the fastest selling mid-size luxury sedan in the United States and has boosted Tesla sales to all-time highs. Adding to the numbers is one thing, but the Tesla Model 3 has also been cited as a recommended car to buy in a recent Consumer Reports publication. Interest in Tesla products such as Solar Roofs and Powerwalls also continues to grow, so we anticipate that our members will have a wide variety of interests.

Model 3 Day on 3/3/18 gave members a chance to touch a Model 3!

With such an influx of new Model 3 owners, many of whom are also new to Tesla, the Tesla Owners Club of Kansas City is leading the charge to bring these new owners into our official Tesla backed club so that they might experience all of the benefits of club membership.

The Tesla Owners Club of Kansas City website can be found at <http://teslakc.net>. This website provides a central hub for owner information, discussions, articles, events and other activities. Members can show their support by acquiring a TOC t-shirt or other logo inspired item.

### MEMBERSHIP UPDATE

As of June 1, 2018 there are more than 50 members registered on our club website and more than 250 registered on our Facebook group. While the club website welcomes both owners and enthusiasts alike (no requirement to have a VIN# to join), individuals can sign up for an annual full club membership for only \$20/year and receive all of the benefits associated with being a full member. Some of these benefits include access to Members Only exclusive events as well as the ability to buy special Tesla merchandise at discounted rates. We anticipate adding additional benefits for members as the club continues to grow!

### TESLA OWNERS SUPPORT

Members of the Tesla Owners Club of Kansas City who have a new Tesla Model 3 can take advantage of our new "3 on 3" program. The program is designed to give new Model 3 owners a thorough orientation in the ownership and operation of their Model 3. Fellow Model 3 owners in the club will educate new owners on how to configure and use the Tesla application on their phone. In addition, specific phone settings to improve key performance will also be covered. The program also walks new owners through all of their on-screen settings in the Model 3 and what each one means. Last, but not least, the program

covers charging and driving information along with a variety of miscellaneous topics to help owners get the most out of their new Model 3. If you, or someone you know has purchased a Tesla Model 3 then simply join the club and you can take advantage of this unique offering.

### JOINING THE CLUB

We invite you to join the Tesla Owners Club of Kansas City today! (Memberships currently can be purchased solely through the club website using a variety of secure payment methods. We are happy to assist you with getting signed up, just ask a current Member!)
